

Normally I have a message for the month, but I need to comment on the supreme court decision.

What a sad day in American history when five people make a decision that affects the whole nation!

Mistaken theology – There are a number of mistakes that Christians make when it comes to homosexuality.

1) *If we disagree with someone, it means we don't love them.*

Our response: Then Jesus didn't love people because he disagreed with the Scribes, Pharisees, religious people, and Jewish and Gentile people. If leftists are right, then Jesus would be one of the most unloving persons in history. He told people in Matthew 25 that if they didn't help the poor, they were going to hell. He told people to repent and follow Him. Numerous times he told people to repent of sin so they could be saved. If disagreeing with people means we are unloving, then the God of the Bible is unloving. God had the ten commandments and 655 other laws. He must not have loved his own people because He judged them time and time again. He told us in Isaiah that our ways are not his ways. Hm-m-m, to a leftist, God is unloving.

2) *All sin is the same.*

Tell that to the judge! Any sin without the Savior can lead you to hell! But not all sins receive the same retribution. In the Pentateuch, different crimes brought different punishments. Some crimes cost you a dove, a sheep, goat or a bull. Some sins caused a person to be excommunicated from the community. Other sins required a death sentence. Homosexuality was one of them. The prophets condemned certain sins that brought judgment. Jesus said that if you are going to harm a child, go skydiving with a millstone around your neck. He didn't suggest that if you lost your temper, had a bad thought or didn't tithe. Paul lists homosexuality as a horrible sin in Romans chapter one. He included it in his list of sins that would keep a person out of the kingdom of God (I Corinthians 6:19). Homosexuality, no doubt, was one of the sins that brought judgment on Sodom and Gomorrah.

3) *Jesus never said anything about homosexuality.*

Jesus also never said anything about rape, incest, stealing, torture, bestiality, etc. Simply put, He didn't have to preach against something that was understood to be sinful in the Old Testament. The fact that Paul preached against it could be evidence that this question came up in his day.

— *Tom's comments* —

Again, the list of sins that the leadership encourages is disgusting. Like Rome, our morality is in the dumpster. When we have a leader that doesn't condemn abortion and is pro-homosexual, pro-Islam and anti-Israel, what's going to happen to America? When Putin has to lecture our nation on morality, what is going on?

My beloved country is on a downward spiral. Only revival, or an act of God to remove evil is going to save us. Can a country survive that kills its own babies like the Moabites did?

I remember getting into arguments with people that were anti-America in the 90's. I would defend our Christian heritage, Christian morality and heart to give. But now we are a country that cannot be defended. We have abandoned Jesus Christ, the Word of God and protection of innocents and now embraces homosexuality. As one of my friends accurately said, "If God doesn't judge America, He is going to have to apologize to Sodom and Gomorrah." Judgment is coming! What are you going to do about it?

"As I look back over fifty years of ministry, I recall innumerable tests, trials and times of crushing pain. But through it all, the Lord has proven faithful, loving and totally true to all of his promises." - David Wilkerson

Honduras Highlights

Report from Teresa We had an awesome time in Honduras with around 35 people from different states like Hawaii, Nebraska, Colorado, Texas, Illinois, Wisconsin, Iowa and Minnesota. We would like to say thanks, first of all, to God for His grace and favor throughout this mission trip, and next, to our missionaries for coming and working here at the City of Refuge in Comayagua, Honduras.

This trip was very successful. The missionaries came and loved on our children. They had lots of activities with the kids. The time was well spent. They went evangelizing in the hospital, poor communities and garbage dumps, bringing food and Bibles. And the most important thing, they brought Jesus into people's lives.

The teams made chicken coops, painted the babies dorm and others worked on the farm. We finished a greenhouse. Pastor Peter Kuringer and his team helped dig and prepare the land to plant vegetables in the greenhouse. Our awesome video friend, Brian Gray, was very busy making videos and taking pictures.

We had a very good time in our three-day medical crusade. Our medical team was very committed and we saw 450 patients. Thank you, Teresa, Pastor Steve, Trent, Dr. Joe, Terry, Brittany, Kara and our two lady doctors, Eryka and Marlyn, for your hard work.

We had an awesome group from Iowa – Linda White and Mary made cushions for the dining room sofas. We could not be more thankful to have had Mike and Cindy Schupbach who helped organize the trip, starting months in advance and while here in Honduras. You guys are amazing! Of course, we enjoyed Mike's pizza. It was delicious. For sure, I want to thank Phillip for helping direct the trip and being there to help me with everything. We finished our trip with an amazing evangelistic crusade in our community. We had around 800 people and a lot of them got saved, healed and blessed. We had around seven pastors from the area and from America, like Pastor Mark KriKunh. We had a very blessed time.

We also had a school anniversary with a lot of activities. Thank you again for loving our children and for believing in what we are doing. We would like to have you back. The kids miss you already.

June mission team report June 6-18 Pastor Brian Worthing with his wife and family came for the second time. They totally blessed my wife by building rabbit cages, preaching and fixing things. My wife felt saddened when they left to go back to the United States. Their daughter and son-in-law want to move to Honduras in the future.

July mission team Leading the team for the ninth straight year was my wife Dr. Teresa and my son Dr. Phil. We had the largest team so far this year. We were blessed to have Pastor Mark Kuhne from Wisconsin with his wife and two daughters, plus, their missionary friend from Tegucigalpa; second time for Rebecca Krumpacker from Nebraska; eighth time for Pastor Steve Stauffacher from Madison with two people from his church; the Lewis brothers from Texas; second time for Teresa Schroeder and her granddaughter from Illinois; one of multiple times for Mike and Cindy Schupbach and first time for their daughter and two granddaughters; seventh time for Brian Gray who does my videos; third time for Brittany from Hawaii who came with two friends, a young lady and Tyler, a nurse; Linda White from Guthrie, IA with two friends; ninth year for Dr. Joe and Terry Fox with two teenagers from Amery; Conroy Boyd, whose dad I worked for; and Pastor Peter Kuriger from Faribault with his two daughters, their youth pastors, and his two in-laws who live in Honduras. What an awesome group of people! They evangelized, loved on the kids, painted the babies orphanage, built chicken coops, and helped at the medical clinic and crusade.

IMI has major problems with the two containers that are still in the port Please pray that we can get our things from the port.

Revival meeting We were blessed to have seven churches come together on July 3 and have revival services. Nobody I know can move a crowd like our Honduran pastor, Reverend Julio. We had around 400 people come and over 100 received Christ. We prayed for hundreds and I had an opportunity to prophesy over 75 people.

Medical crusade was a super success Thanks to Warm Blankets Orphan Care in Chicago we were able to help over 500 people receive prayer and medical aid. Teresa Schroeder and my wife, Dr. Teresa, led the team. They were blessed to have a lot of help which included Tyler, a nurse from Hawaii, and Pastor Steve Stauffacher from Madison, WI.

Supernatural healing A young man in the village shared with me that he went to our medical clinic but his stomach still hurt. So I prayed for him, and God healed him supernaturally. Thanks be to God.

Cold call turns into a container of food and medical supplies In November, we found out that our lawyer had deceived us. In the midst of my anger, I decided to pay back the devil and make a cold call to a ministry that has helped our partners in the past. During our second conversation, the president of Warm Blankets prayed, "Lord, if you want me to go to Honduras, then have Tom go to Honduras on December 28th – which was the day I was going. Glory to God! It happened. He came and loved it. We thank God that Warm Blankets sent us a container of food and medical supplies. This blessed our medical outreach in July for the people of Comayagua, Honduras. We were also able to bless our friends in Puerto Cortez by giving them one third of the food.

IMI hires our first part-time doctor My wife is swamped with running the City of Refuge, so we decided to take a step of faith and hire a part-time doctor. With over 400 patients in three days, we know it was a good move. To help support the doctor, write **doctor** on your check.

IMI continues remodeling toddlers orphanage As of July 4th, the inside plastering is done and we are almost finished painting the inside of the building. Two of our children will be painting Noah's ark and animals and similar things to make the rooms beautiful. We sent over \$6,000 to buy paint, doors and windows. By the end of July, the doors and windows will be finished, and we will be needing to send \$5,200 to buy the tile for the complete babies orphanage. To help out mark **babies orphanage** on your offering. After tiling, we have to put in new bathrooms and finish the outside of the building, and then, add a large outdoor porch where the children can play.

Painting buildings We are almost finished painting our remodeled babies orphanage. Hopefully, the missionaries will finish painting the rest of the buildings we have on the property.

Our next remodeling project The boys orphanage needs some TLC and the bathrooms need to be redone. With 36 boys, I'm sure you understand.

Multi-purpose building In July, we bought more shelves for the storage room and the rec room.

Revival crusade

Food for the poor

Distribution

Honduras Highlights

We are breaking ground on our senior high boys orphanage/apartment

We cleared the land for our new boys orphanage/apartment. We plan on putting in the foundations and laying block during the second week of July. This will be our new model for our orphanages. It will have two uses. One, we will have six to eight boys in each of the two buildings. And two, it can be versatile and turned into two-bedroom apartments for our workers, widows or poor families from the garbage dumps. Mark **orphanage** if you want to help.

Future project – new soccer field in the compound Our current soccer field is across the street and requires adults to watch the children for their safety. The new soccer field will be in the main compound and will enable the children to play without a lot of adult supervision.

July projects

Church – At the top of the mountain, we are building our first small church. As of July 4th, all they have left to do is finish the roof and paint the building. The building will look like a log cabin. Everyone enjoys praying at the chapel that overlooks the City of Refuge. It's an awesome experience to pray over the City of Refuge, to see what the Lord has done and continue to pray for a move of God.

Two garages – We are building two garages for our van and four trucks. This will help preserve their value by keeping them out of the rain and the sun. As of July the 4th, our workers have put the frame on one and finished the small garage. Garages in Honduras are basically just metal buildings with metal roofs.

Security is very important, especially in a third world nation We have walls now in the front of our property and are building walls on one side of the property. The property is 7/10 mile long. After we make the \$5,000 September payment, we will have finished what we need to secure the front of our property. We have now begun the long, tedious process of building a three-foot high fence with eight-foot chain-link fencing and razor wire on top. This will probably take at least a year. We will also begin securing the children's orphanages and school the same way.

Hardware store We are getting plans made up to have a building to store larger items for the hardware store. The one we have is way too small.

IMI buys lamps for our hotel We heard from our guests, so we responded by buying new lamps for every hotel room.

City of Refuge now has souvenirs available for purchase We have T-shirts and coffee mugs with the photos of the children.

IMI preparing to print our own T-shirts In May, we finally were able to invest \$2,000 to fix our T-shirt printer. Blanca Guzman from Chicago will be heading this up. We will also need to raise \$6,000 to buy sewing machines and cutters in Honduras. Please pray for this exciting adventure.

Manufacturing plans a step closer

After overcoming a major hit, we are gearing up to make the dream of building a self-sufficient city another step closer. At the City of Refuge, we are wanting to purchase:

- T-shirt sewing machines to make shirts, dresses and other clothes – cost is \$6,000.
- Necessary equipment for making bricks, as there are other brickmaking factories only two miles away because of the availability of raw materials.

Water park is a success On July 3rd, we invited the whole community to come and enjoy the water park. Wow! It was awesome to see over a hundred people having fun. They love the water slides – I do too! We bought a big air mattress and it was hilarious to see kids trying to jump on the air mattress at the same time. We had so much fun. I didn't realize the camaraderie that the water park would bring to the community.

IMI will be breaking ground on new pool for our Bible-based water park We are wanting to have someone market our hotel to other groups. We want a theme-related park, so our contractor is going to build us an ark like Noah with a water slide. He has built a whale before and we want him to do it again. So, like Jonah, we will have a whale of a ride.

Music prayer answered I have been praying to meet someone who could teach our children how to play Honduras music. For our school anniversary, we had a team from the college in Comayagua come and play. They were incredible, and they have agreed to come and teach our children.

Music Our goal is to buy an instrument a month. This month, we purchased two little drums, a bass guitar and a trumpet. We already had a regular guitar, two flutes, a trombone and two violins.

To sponsor a poor child to go to school, it's \$20 per month or \$200 a year 100% of the monies goes to the school, ZERO to Tom and Teresa. You will get updates and emails from the children. If you believe in education, then you get the great opportunity to help a child change the world through bilingual Christian education.

Sponsor a child to go to college Currently, Adriana, our eldest daughter in the orphanage (whose mother and sisters are prostitutes), is in her second year of medical school. IMI is looking for seven sponsors for \$100 a month or two sponsors for \$350 a month or one sponsor for \$700 a month. Life is getting more expensive there and schooling even more. Please pray about helping Adriana become a doctor. Mark **Adriana** on your check to help with her education.

Transformer blew during the mission trip For two months we waited patiently for the Honduras electric company to put in our new transformer. They kept delaying the process. After it blew up, we were forced to find our own transformer. Now, praise God, it is installed and everything is working awesome. God is good!

IMI hires new mechanic I just met with a mechanic who has been fixing cars in Honduras since he was eleven years old. We are now designing a shop at the City of Refuge. Because our road is so bumpy, we have at least two of our vehicles in the shop each month, so we are building our own shop. He is meeting with one of our key people to plan the building. We will then be buying a compressor, equipment for changing tires, and many other tools. There are four purposes: (1) Fixing our own vehicles (we have five) at a discount rate; (2) training our young people to fix cars, (3) fixing cars and motorcycles in fourteen communities, thus providing a source of income for our city, (4) selling retail parts to others. We will be breaking ground (not braking ground) in mid-July.

Truck reports

Farm truck is paid off. Hallelujah! Our old one was a piece of junk. We praise God for his faithfulness.

Transportation truck is used to pick up people at the airport, buy supplies and transport small groups. We start making payments in July. We currently owe \$21,000 and our goal is to pay it off in eleven weeks.

My spiritual daughter's nephew came to Honduras and was rocked Electricity has been brought to the two barns, thanks to my spiritual daughter's nephew from Lodi, WI. He is an electrician who attended one of my meetings and gave his life to Christ in June.

Missionaries from Texas build four chicken coops We are building a professional egg-laying facility. The barn is built, and we are currently building chicken coops. We will also have to set up the water and automatic feeding stations. Currently, we get about thirty eggs a day. Praise God! With the new chicken coops, we should be getting close to 200 eggs a day.

Rabbit cages Currently, we are using our rabbit cages for our baby chicks. We have nine of them so far.

IMI is building our first cow barn The money was donated by a wonderful lady from Wisconsin. We broke ground in July. The large barn will be 3,300 square feet and is almost as big as our girls orphanage. The cost is \$25,000 and we have raised over \$7,000. Currently, we are digging the footings.

IMI buys a new holstein bull Brahmans are nice and durable but produce little milk. Holsteins are huge milk producers. The bull will be ready to breed in a few months.

IMI had baby pigs Our piggies are growing and they are cute.

IMI is setting up five tilapia ponds The pipes are connected and now our engineer is figuring out how many fish we need per pond. We currently have five ponds, but our goal is to have twelve. Our goal is to be the number one producer of tilapia in Honduras. Plus, we will be planting fruit trees around and between the ponds. And then, we will let our ducks and geese swim and eat the vegetation. So we are getting triple use of the land.

"If you want to know how your girl will treat you after marriage, just listen to her talking to her little brother." – Sam Levenson

Beans are in short supply in Honduras

The government of Honduras guarantees a minimum price for beans because there are not enough beans being raised. Beans are more expensive to raise, but they produce a higher profit margin than corn. We have planted a number of acres of beans and they are starting to grow.

IMI buys second irrigation system for 62-acre property

We have just sent \$8,700 to plant corn and beans on our new property. This is the first time we will be able to use this property. After the planting, our engineer will be putting in the irrigation system. We are going to be quintupling our land for corn and beans. Our past goal was to have enough grains to feed our orphans and livestock. We are now entering phase two, which is to harvest the grain and give it away to feed 2,000 children and widows a month.

IMI is getting ready to plant more trees and vegetables on our eight-acre property

The land is prepped and the trees are ready to be planted. Then, we can run irrigation lines.

IMI builds first greenhouse We are excited to have our first greenhouse finished. A load of dirt has been dropped off and we expect to begin planting by mid-July.

We made our twelfth payment of \$6,000 for the 52 acres and a house

We are halfway there. We have twelve payments left to pay off this property. The cattle are enjoying 52 acres of food. If you would like to donate for the land, please mark **land** on your offering.

The roof is finished on house #3

It's way bigger than I imagined. It will also be able to be rented in the near future. Again, it will provide extra income for children and bless God's people. Our next step is to finish the electrical.

IMI now has thirteen churches in Liberia and not one IMI member died from Ebola

Bishop Freeman came with me for three days and informed me that none of the members of his congregations have died from Ebola in fulfillment of Psalms 91. We thank the Lord for His divine protection.

Norway Pastor Isaiah will be planting a new church in Norway. Please keep him in prayer.

Spreading the gospel

- "It's not how much we give but how much love we put into giving." – Mother Teresa
- "The blood of the martyrs is the seed of the church." – Tertullian

June was an incredible month

- I preached in Pastor Dave Ford's brand new 27,000-square-foot church in Wisconsin and the Holy Spirit moved powerfully in the prophetic. Pastor Dave wants to have me back.
- I preached in Pennsylvania with Pastor Don Wallabaugh. His church was where evangelist Todd White of the movie, *Holy Ghost*, got his start. The service lasted for nearly five hours.
- Dozens received Christ in our meetings in Texas and we ordained a young man into the ministry.
- We did a home meeting in Wisconsin and seventeen people received Christ, mostly Amish or ex-Amish.
- We preached in Waltham, MN for our long-term friends of over twenty years, Charles and Susan Olson.
- Thirty people received Christ in our North Dakota meetings.
- After holding fifteen home meetings, we had a record number of people come to Jeff and Debbie Shelton's house.

Leadership advice

- "The quality of a leader is reflected in the standards they set for themselves." – Ray Kroc
- "Only he who can see the invisible can do the impossible" – Frank L. Gaines

New ministers

We welcome: John Benton – Machesney Park, IL
Jared Pierson – Portage, WI
Sue Duhkopf – Cedar Falls, IA
Cheryl Butz, our CFO – North St. Paul, MN

Tom has a new job Investors are looking for properties to purchase around the U of W in Madison. Please pray for me to find property owners who are willing to sell. Any sale benefits IMI and allows Tom and Teresa to develop an income stream so we don't have to receive money from the ministry.

Finances "The only way you will ever permanently take control of your financial life is to dig deep and fix the root problem." – Suze Orman
What is your root problem in your finances. Conquer it.

NUTRIENT DENSE DIRTY WATER TO PLANTS

Aquaponics is a farming method that grows fish in a controlled environment and uses the filtered waste water to supply nutrients for growing hydroponic vegetables. The plants naturally purify the water, which is then returned to the fish to start the cycle over again. The base system can grow considerably more vegetables than fish. This process requires clean water to fill the system and pumps to recycle it. The low-level electrical requirement can be provided by solar/battery and back-up generators.

Using the environmentally friendly aquaponics method displays reverence for God's creation. Our City of Refuge orphanage students will learn green agricultural practices, sustainability, economics, community service, and

how God blesses His people to bless others – all through the science of aquaponics. Not only will students gain a biological and global perspective, but aquaponics will become a key stream of revenue for the orphanage. This is only the beginning of feeding children, growing a community and accomplishing God's purpose for His people through:

THE Aquaponics VISION

• **Education** – Students receive "hands-on" experience in the areas of biology, microbiology, physical sciences, and mechanics. Students can design experiments to optimize growth factors in fish and vegetable production by adjusting environmental and nutritional inputs in a controlled environment where growth can be measured.

• **Nutrition** – The students can learn other ways to provide nutritious meals through farming, fish raising and preparation of food.

• **Community** – We can provide not only safe and nutritious food for the community, but also training.

• **Missions** – The City of Refuge can invite other organizations and churches to help support the aquaponics system, offering a great way for others to minister to their community and beyond!

The estimated \$20,000 cost of an aquaponics system includes the microbiology-culture tank, solar panels and generators, air pumps and hardware, transportation and installation, and annual feed and supplies. You may help by sending checks to **Impact Ministries International, P.O. Box 102, Lonsdale, MN 55046** or donating online at <http://tstamman.com/donation-center-2/> ear-marked **Aquaponics Honduras**.

Do you know of a church, organization or ministry that would like to have Teresa, my son, daughter or an IMI representative come to minister? Call me at **(612)202-6064** if you know anyone who may be interested in having us.

Incredible divinely orchestrated connection This is a follow-up on last month's divine connection with the man I met in the airport. Pastor Jose told me that he had been so frustrated that he felt like quitting. He prayed, "Send me someone who has a word for me." As I prophesied over him, God spoke to him and encouraged him to keep going and not to quit. He was so blessed that I will be speaking at his church in San Antonio in December.

Impact "A life is not important except in the impact it has on other lives." - Jackie Robinson

Covenant Partnership

Name _____

Address _____

City _____

State _____ Zip Code _____

I'd like to become a covenant partner of Impact Ministries International. I will diligently pray and financially support this ministry so that together we can fulfill God's will to preach salvation, to prophesy, and to pray for the sick worldwide. As the Lord provides, I will share my financial blessings and my time to intercede for those who need the living Christ.

My covenant promise is to pray and give:

- \$15.00 \$20.00 \$50.00 \$100.00
 \$250.00 \$500.00 \$1,000.00 per month
 Or a one-time gift of \$ _____

Let's labor together!

IMI retreat center is available for rent

Did you know that you can rent a beautiful six-bedroom, six-bathroom cabin with large meetings rooms, swimming, fishing, shooting, hunting, volleyball, basketball and games for our cost plus cleaning if you are an IMI partner? Call **Tom** at (612)202-6064 or contact **Teresa** through our listing on www.vrbo.com West Union, IA.

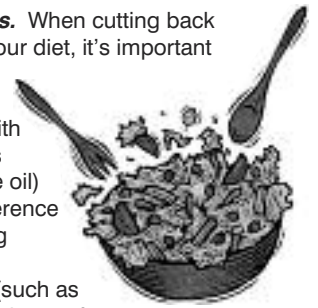

Do you have a snowmobile, car, truck, furniture, etc. to donate?

Why not feed children with the things you have laying around your property? A good friend of ours donated a truck and we were able to feed 100 children in one month. Call **Tom**, if you are interested, at (612)202-6064.

Healthy Tip by Dr. Teresa

Make the right changes. When cutting back on unhealthy foods in your diet, it's important to replace them with healthy alternatives.

Replacing animal fats with vegetables fats (such as switching butter for olive oil) will make a positive difference to your health. Switching animal fats for refined carbohydrates, though (such as switching your breakfast bacon for a donut) will not be an improvement.

Simplify. Instead of being overly concerned with counting calories, think of your diet in terms of color, variety, and freshness. Focus on avoiding packaged and processed foods and opting for more fresh ingredients.

Focus on how you feel after eating. This will help foster healthy new habits and tastes. The more healthy food you eat, the better you'll feel after a meal. The more junk food you eat, the more likely you are to feel uncomfortable, nauseous, or drained of energy.

Marriage tip by Teresa Stamman

"Keep doing novel things together."

Anthropologist Helen Fisher suggests that couples keep doing novel things together. She says, "Novelty drives up the dopamine system in the brain and can help to sustain feelings of romantic love."

Satan is our enemy. He is very evil, and he and his buddies (called demons) can make plenty of bad things happen. There are some people who think God and Satan on are the same level of power with God being the "good guy" and Satan being the "bad guy". But the fact is, God actually created Satan originally as an angel named Lucifer. Lucifer thought he was so beautiful and so great that he should be worshipped instead of God. He rebelled against God. So God had no choice but to instantly throw him out of heaven and take away his angel name (Isaiah chapter 14).

Now if Satan is only an angel created by God and was rebellious and thrown out of heaven by God, who is more powerful - Satan or God? God is, of course! But Satan doesn't want you to know that, and he tries to fool people (especially kids) into thinking he has just as much power as God. But always remember, God is much MUCH MUCH stronger than Satan will ever be!

And since God lives inside of you, the power of God is in you to defeat the power of Satan that comes against you. When God's enemy comes against you with something scary or bad, just tell Satan and his demons they have to "Go in the name of Jesus!" - and they have to run away!
